Todd --

The May 11 DR CAS discussion will be a good opportunity to get an update of the World Bank Group's view of the DR energy sector. [(b)(5)]

A team from Cogentrix came in to see Treasury (ITI, INL, and IDB). I'll fax over the letter sent to Gay after the meeting.

Elizabeth,

Could you send me a short note to let me know where things now stand w/ the DR, power projects, and the IDB? Do I need to get back to WB/IFC staff on anything?

Thanks.

Todd Crawford
