June 17, 2014

Dear Dr. Barbehenn:

We have received your June 5, 2014, letter to Dr. Woodcock in response to the Agency's denial of your citizen petition, which requested that we remove the diabetes drug liraglutide from the market.

Your letter has been forwarded to the appropriate Agency experts on these matters and will be given appropriate consideration with respect to the new drug application you reference in your letter and other related matters as applicable.

Thank you for contacting us concerning this matter.

Sincerely,

A handwritten signature in blue ink that reads "Johanna Mclatchy".

Johanna Mclatchy, M.Sc., RN
