

# WAKE UP FORD:

**Stop colluding with Trump to make cars dirty again!**

Ford and President Trump's push to roll back the clean car standards will hurt American families — forcing them to spend more money on gas, polluting our air and accelerating climate change.

## IF ROLLED BACK, OUR CARS WILL:

Spew 6 billion metric tons of dangerous climate pollution, the equivalent of a year's worth of emissions from 150 coal-fired power plants.

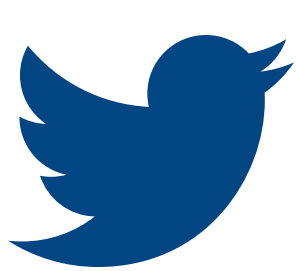

Drain Americans' pocketbooks, halting billions of dollars of consumer savings at the gas pump.

Guzzle 12 billion additional barrels of oil.

## Take action!

**Tweet:** Hey @Ford! Stop colluding with Trump to make cars dirty again! Go #ForwardNotBackward!
