Re: [www.cybertriallawyer-sucks.com](http://www.cybertriallawyer-sucks.com)

Dear Jeff:

I wanted to provide you with the domain name for a website your company is hosting. Obviously it is a "sucks" site targeting our law firm and it contains vast quantities of false, defamatory statements and/or trademark infringement issues.

For some background, Mr. Riley is a relatively famous "gripe site" tactician. In addition to this site, he is hosting "sucks" sites targeting American Express, Northwest Airlines, and others, and I guess you could say that his most notorious "sucks" site was the one he launched attacking his children's school in Michigan. He is quite a character, to say the least.

Mr. Riley has built up seemingly hundreds of links to this site and it is now the third result when our law firm is searched on the Google search engine. I would therefore request that once this site is removed you not provide any type of server side redirect, including a 301 redirect, that could potentially transfer the "page rank juice" to a new site.

Thank you in advance for your immediate cooperation and please don't hesitate to contact me if I can be of assistance to you in the future. I won't forget about your assistance in this matter.

Sincerely,

John W. Dozier, Jr., Esq.
