Re: Oppose the energy bill

To the Members of the 107th Congress:

As environmental, public interest, and consumer organizations, we strongly urge you not to pass a harmful, regressive energy bill out of conference committee this congress. While H.R. 4 is packed with numerous incentives for destructive polluters, it does virtually nothing to advance conservation and efficiency in this country, or meaningfully promote safe, clean and affordable renewable energies.

If passed, this bill would include handouts and subsidies to some of the wealthiest corporations in this country. Do not give billions of dollars to the oil, nuclear, and coal industries at the expense of your constituents' health, safety, and tax dollars. We urge you to defeat the energy bill.

Sincerely,

NATIONAL ORGANIZATIONS
