<sup>1</sup> Rank is calculated based upon an average of the disciplinary rates for 2007, 2008, and 2009.

<sup>2</sup> Includes osteopathic physicians for boards with jurisdiction over both physicians and osteopaths.

<sup>3</sup> In previous reports we used non-federal physicians, but in this report we used data for total physicians because the American Medical Association no longer provides physician data broken down by federal/non-federal status.

<sup>4</sup> Disciplinary rate for the period is calculated by averaging the disciplinary rates over the three-year period 2007-9.
