Washington, D.C. 20009

April 2, 2013

Mr. Lamberto Andreotti
Chief Executive Officer, Bristol-Myers Squibb
345 Park Avenue
New York, New York 10154

Attention: Mr. Lamberto Andreotti

Dear Mr. Andreotti,

SUBJECT: Public Citizen calls on Bristol-Myers Squibb to follow the lead of the Medicines Patent Pool

Please find enclosed Public Citizen's press release concerning the Medicines Patent Pool's recent licensing agreement with ViiV Healthcare on existing and pipeline pediatric HIV drugs. Broad licenses that include open, pro-competitive terms are essential for reducing costs, expanding access to needed treatments and saving lives. We strongly urge you follow the lead of the Medicines Patent Pool toward improving treatment options for children and adults living with HIV and the eventual achievement of an AIDS-free generation. We thank you for your consideration.

Sincerely,

Peter Maybarduk
Global Access to Medicines Program, Director
Public Citizen
